Priyanka Rajkumar

Artificial Intelligence and Machine Learning undergraduate with knowledge of Python, Java, SQL, DBMS, Microsoft Excel, Power BI, and data visualization. Interested in Generative AI, machine learning, and data analytics. Strong analytical, problem-solving, and communication skills with experience in academic projects. Seeking an internship or entry-level role to contribute technical skills while learning from industry professionals.

WORK EXPERIENCE

AI & Full Stack Developer

COTSify - Coimbatore, India

Feb 2026 – Jul 2026

Contributed to the development of COTSify, an AI-powered web platform focused on automating the sizing and selection of Commercial Off-The-Shelf (COTS) components.

Collaborated with the development team to design, build, and enhance the platform's features while ensuring a responsive and user-friendly experience.

B.E. Computer Science & Engineering (AI & ML)

Rathinam Technical Campus -
Coimbatore, India

2025 – Present

Pursuing B.E. in Artificial Intelligence and Machine Learning with coursework in Python, Java, DBMS, Data Structures, Machine Learning, Data Analytics, SQL, Power BI, and Generative AI.

Assisted in implementing AI-driven functionalities, improving system performance, testing application features, and resolving technical issues.

Profile

Participated in academic projects involving AI-powered web applications, data visualization, and software development.

Participated in project planning, documentation, and team discussions to deliver a scalable and efficient solution.
